

Welcome About me CV Gallery Group photos Contacts

Welcome to my personal webpage!

Over the years, I have explored a variety of subjects that sparked my interest. I became involved in different school clubs and activities—such as criminalistics, debate, dance, and tutoring—all of which have shaped the person I am today. Through these experiences, I've come to understand the importance of staying curious and open to learning.

Student. Thinker. Creator.

Little description of myself

I am currently a student at [IMC Krems](#), studying [Informatics in English](#). I graduated from [high school](#) in 2025 in Moldova and spent an exchange semester in Brussels, where I studied in French. This international experience helped me adapt to diverse environments and improved my language and communication skills.

My interest in programming began after taking some courses and [internationally accredited exams](#), which provided me with a broader understanding of what computer science truly encompasses. Beyond technology, I am also passionate about economics, finance, and accounting, as I enjoy learning how these fields connect with innovation and global development. My hobbies include learning new languages, cycling, hiking, skiing, and trying new recipes.
